February 20, 2002

To the Board of Directors and Stockholders of Hancock Financial, Inc.

I have audited the accompanying balance sheet and the related statements of operations and of changes in stockholders' equity and statement of cash flows of Hancock Financial, Inc. at December 31, 2001 and for the year then ended. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. These standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes assessing the accounting principles and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Hancock Financial, Inc., as of December 31, 2001 and the results of its operations and its changes in cash flows for the year then ended in conformity with generally accepted accounting principles.

My examination was made for the purpose of forming an opinion on the basic financial statements, taken as a whole. The information contained in Supplementary Schedules I, II and III is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the examination of the basic financial states and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

SUPPLEMENTARY REPORT OF INDEPENDENT ACCOUNTANTS UNDER SEC RULE a-5 (q) (1)

To the Board of Directors and Shareholders of Hancock Financial, Inc.

I have examined the financial statements of Hancock Financial, Inc. (the Company) for the year ended December 31, 2001, and have issued my report thereon dated February 20, 2002. As part of my examination, I made a study and evaluation of the Company's system of internal accounting control to the extent I considered necessary to evaluate the system as required by generally accepted auditing standards. The purpose of my study and evaluation, which included obtaining an understanding of the accounting system, was to determine the nature, timing, and extent of the auditing procedures necessary for expressing an opinion on the financial statements.

Also, as required by Rule a-5 (g) (1) of the Securities and Exchange Commission, I have made a study of the practices and procedures followed by the Company, that I considered relevant to the objectives stated in Rule a-5 (g), in making the periodic computations of aggregate indebtedness and net capital compliance with the exemptive provisions of Rule 15c3-3. I did not review the practices and procedures followed by the Company (i) in quarterly securities examinations, the verifications and comparisons, and the recordation of differences required by Rule a-13; (ii) in complying with the requirements for prompt payment for securities of Section 4 (c) of the Regulation T of the Board of Governors of the Federal Reserve and (iii) in obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining a system of internal accounting control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. The objectives of a system and the practices and procedures are to provide management

with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded property to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5 (g) lists additional objectives of the procedures listed in the preceding paragraph.

Because of inherent limitations in any internal accounting control procedures, or the practices and procedures referred to above, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the degree of compliance with them may deteriorate.

My study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all material weaknesses in the system. Accordingly, I do not express an opinion on the system of internal accounting control of Hancock Financial Inc. taken as a whole. However, my study and evaluation disclosed no condition that I believed to be a material weakness.

I understand that practices and procedures that accomplish those objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities and Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate material inadequacy for such purposes. Based on this understanding and on my study, I believe that the Company's practices and procedures were adequate at December 31, 2001, to meet the Commission's objectives.

This report is intended solely for the use of management and the Securities and Exchange Commission and should not be used for any other purpose.

H.L Mike Culver,

Certified Public Accountant
